DRAYTON VALLEY, ALBERTA
WEDNESDAY, OCTOBER 22, 1969

Newly-elected members of Town Council are shown being sworn into office at the inaugural meeting Monday afternoon. From left to right are Councillor R. Smith, Mayor H. Pickup, Councillor R. Huber and Secretary-Treasurer W. Johanneson.

VOTERS RETURN FORMER MAYOR

Approximately 35 percent of Drayton Valley's eligible voters turned out at the poll last Wednesday to elect a new mayor, two councillors, and representatives to public and separate school boards.

Five hundred and sixty of about 1,500 eligible voters cast ballots.

Howard W. Pickup, a former mayor and councillor, was returned as mayor with 325 votes. Dale Gaehring, the only other candidate, received 226 votes. One ballot was spoiled and eight rejected.

Elected to Town Council were R.B. Smith and R. Huber. Unsuccessful candidates were Mrs. Inez Oscar and Denis Meier. Ballot count gave Smith 356 votes: Huber, 285; Oscar, 220; and Meier, 51. Eight ballots were rejected.

County school representative voting ended in a tight finish with five votes separating the two contestants. Jack Tyler won the post with 218 votes to 213 for Tom Johnson. Eleven ballots were rejected.

A. Horne, won the Sepatate School trustee's seat with 84 votes compared to 57 for D. Meraw and 37 for L. Serenas. One ballot was spoiled.

Returning Officer Bill Johanneson noted that many of the rejected ballots had been marked with check-marks (✓), rather than the required (X).

Turnout at the poll, larger than in recent years, was improved by the Womens' Institute who had undertaken the job of getting voters out as a club project. Members of the W.I. phoned everyone in town with a voting day reminder and also provided transportation if necessary.

Hail Studies Project Ends Successful Summer

The 1969 hail season is over, and the Alberta Hail Studies Project has now shut down its observation program for the winter. Compared to recent years, hail activity in the study area increased in 1969. The area under intensive observation extends from Leduc south to High River, and from the foothills east to a Hanna-Viking line.

Over 2,000 hail reports were mailed-in by farmers living within this area. In addition, on days of special interest, telephone surveys conducted by Hail Studies staff yielded another 1842 reports.

The hail belt appeared to shift north in 1969. Less than normal activity occurred in the area south of Calgary, but there was a big increase in activity around Edmonton, with severe storms also reported up in the Peace River Country.

A very severe storm hit Edmonton early in August and provided the Project with a once-in-a-lifetime opportunity to study the detailed hailfall over a small area on scale never attempted before. A total of about 300 hail samples were collected from the city and the surrounding country. Work has begun on the tremendous task of classifying, photographing and sectioning these hailstones.

The Alberta Hail Studies Project is a co-operative research program, involving four agencies The Research Council of Alberta is responsible for the field program and the design, operation and evaluation of experiments. The National Research Council in Ottawa has developed the weather radar system, now in use at Penhold, to the point where its unique features make it one of the best in the world for studying severe storms. The Meteorological Services of Canada provides forcast services, personnel and instrumentation, including a special radiosonde station at Rocky Mountain House. Much of the data analysis is done by staff and graduate students at McGill University under contract to the Meteorological Service.

In addition, five other research groups came to Penhold this year to make use of the excellent facilities. Two of these groups were from other parts of Canada, and three were from the United States.

July was by far the most active month in central Alberta with hail falling somewhere within a 90 mile radius from Red Deer on 23 days. It is fortunate that the Project had concentrated most of its observational effort into this period. Using two instrumented aircraft, ground based weather radar at Penhold, cloud photography in the Rocky Mountain House area, and five mobile units on the ground, a vast amount of data was collected on the July storms.

Hundreds of rain and hail samples were collected for laboratory analysis. The several thousand hail reports received from the farmers will enable maps to be drawn showing the detailed hailfall pattern at the ground.

Some preliminary cloud seeding and tracer experiments were conducted on three days.

The amount of useful data obtained during the 1969 hail season was greater than in any previous year. Scientists in many parts of Canada and the United States have now begun the long winter's task of analysing and interpreting these observations. Putting all the results together will improve man's understanding of hailstorms, and bring the Project one more step closer to the day when it should be possible to lessen the damaging effects of hail.

LETTERS TO THE EDITOR

Editor,
The Western Review,
Drayton Valley, Alberta

Dear Sir:

I have just found out that recordings of the community choir's Easter Cantata (April '69) have been made available to the general public. though whether they are being sold or not, I do not know. I was not aware that this was being done and was not asked about it before hand.

I hate to hurt the feelings of those whose intentions are good, but it must be pointed out, however brutal it may seem, that there are one or two objections to the distribution of this disc. 1. If my name and that of the choir is to be put on a record's label, we like to know about it before hand. 2. The recording was apparently made about 15% too slow, from a tape taken in a church with less than perfect acoustics. The choir and organist are very far from the sort of standard that might survive this treatment and I am quite appalled to think our choir's efforts are being distributed for public hearing in this way. 3. Whether or not these records are being sold for a profit, sold for a loss, or given away, we may well have trouble with Mr. John Peterson or his publisher, or both. I therefore feel very strongly that these records should not be sold, and I regret they are being distributed.

Nothing in the above reflects in any way on the fine group of citizens with whom I have greatly enjoyed working for so many years in the Drayton Valley Community Choir.

Yours Sincerely,
Hugh L. Maclure.

I am glad to report that Peter Labuda is home again after six weeks in the hospital. We hope that you will keep right on improving in health Peter.

Mr. Kent has returned home after a nice long visit with his folks.

Mrs. Dorothy Gunn is a very proud great grandmother as Mr. and Mrs. W. Zolmer had a lovely baby girl and they call her Tracy Ann. She was born on October 7th and weighed 7½ lbs. Mrs. Zolmer was the former Carol Wichuck so that makes Mr. and Mrs. W. Wichuck proud grandparents again.

Mr. and Mrs. E. Venne spent the weekend with a daughter at Fort St. John.

Mr. and Mrs. V. Daly of Coaldale, Alberta visited with the latter's brother and sister-in-law Mr. and Mrs. F. Anderson recently. While here they also visited a sister and brother-in-law Mr. and Mrs. O. Carter of Darwell.

Mrs. Kent was visiting relatives at Flin Flon, Manitoba for a couple of weeks.

Mr. Gordon Hancock is home again after a week at Vancouver.

Mr. and Mrs. M. Hagen have moved to Blackfalds, Alberta where Mr. Hagen is employed. I am sure we will all miss them but we do wish them well.

When a man gets too old to set a bad example, he starts giving good advice.

EDITORIAL COMMENT

Pollution Getting More Attention

Pollution is the gravest problem facing the world today. In our haste to find means of protecting crops and humans from insects and disease we unleashed a monster in the form of pesticides before enough study of their effect was undertaken.

We don't dispute the fact that protection of farm and orchard crops is necessary -- but we do think that insecticides should be tested thoroughly and their side effects investigated before being put to use. D.D.T. was apparently an emergency war-time measure that was carried on following the war and is now beginning to show facets not previously known.

Many species of wildlife are already in grave danger. Song birds are vanishing from parts of the country as a result of insecticide loaded food supplies. Predators are following suit by preying on the infected smaller birds and mammals. A vicious circle is in full swing and Alberta has joined the club with loaded pheasants and Hungarian Partridges. The birds and animals that prey on them will follow.

It is with relief that press reports now indicate a great deal of interest in pollution of all kinds at all levels of government. It was a long time coming but hopefully, the day is approaching when mankind will take the necessary steps to preserve the world for those who follow.

Whitecourt Church Setting For September Wedding

Bouquets of chrysanthemums and gladioli graced the alter in St. Joseph's Roman Catholic Church in Whitecourt on September 3rd as Therese Elise, daughter of Mr. and Mrs. Roger Bougie of Whitecourt, and Richard James, son of Mr. and Mrs. Wilf Sleno of Drayton Valley exchanged vows in a lovely late afternoon wedding mass. Rev. Father Bouprie of Whitecourt officiated at the double-ring ceremony and Rev. Father Lynch of Drayton Valley read the Epistle.

Given in marriage by her father, the bride looked lovely in an off-white sleeveless wool dress, with matching full-length cape featuring a mandarin collar and full back. A beret styled hat, off-white slippers and long white gloves completed her ensemble. She carried a white Bible topped with a large white orchid.

The bridesmaids were Miss Paulette Bougie, sister of the bride and Miss Janet Sleno, sister of the groom. They both wore identical dresses of deep coral velvet, with matching short cape, coral slippers and long white gloves. Each wore a gold cross necklace and earrings, and each carried small velvet covered prayer books topped with white orchids. In their hair they wore a bandeau of tiny white flowers and green ivy.

The best men were Mr. Dave Sleno, brother of the groom, and Mr. Lorne Hoff friend of the groom.

For her daughter's wedding, Mrs. Bougie was smartly attired in a coral fortrel dress with matching coat. She wore brown and white accessories and a corsage of yellow rose buds.

Mrs. Sleno chose a blue skimmer with matching lace overcoat, beige accessories and a corsage of pink rose buds.

During the mass, the mother of the groom sang "The Wedding Prayer", and "I Love You Truly", during the signing of the register, accompanied by the church organist.

The reception was held in the dining room of the Rivers Motor Hotel, where Mr. Steve Gordon, brother-in-law of the bride, acted as master of ceremonies.

Father Lynch said the grace for the meal. Mr. Ralph Hawes proposed a toast to the bride, to which the groom ably responded. Mr. Dave Sleno proposed a toast to the bridesmaids. Father Bouprie and Father Lynch spoke briefly.

The bride's table was centered with a three-tiered wedding cake, topped with a pair of white doves and flanked by bouquets of freshly cut flowers, and tall white candles.

A party at the home of the bride's parents followed the reception.

After a honeymoon trip to Jasper and Banff, the happy young couple have made their home in Edmonton, where both are attending the Northern Alberta Institute of Technology.

Summary Regular Meeting Of Parkland Council

Minutes of a regular meeting of the Council of the County of Parkland No. 31 held in the County Office on Tuesday, October 14th.

Members present were Reeve Rudolph Zander, Deputy-Reeve Leslie N. Miller, Councillors Robert A. Bailey, Peter Bakker, Roy Lent, George Mann and Ivan Vowk.

Mr. Reginald Hillgardner of Winterburn was present at the meeting and requested cancellation of the road in Block B, Plan 3589M.C. in the SE 12-53-26-4.

It was resolved that application be made to the Director of Surveys of the Department of Highways and Transport for cancellation of the road in Block B, Plan 3589M.C. in the SE 12-53-26-4 and that same be transfered back to the parcel as it is no longer required for road purposes.

Mr. Carl Schnizek of Fallis called on the Council and requested improvements to the road through the NW 29 and S½ 32-53-5-5. This matter was referred to Councillor Mann for attention.

Request for removal of drainage obstruction at Lot 9, Block 2, Plan 6053H.W., South Seba Beach was received from Mr. Douglas Kermode of Edmonton. Councillor Mann reported having made inspection in this connection and having made arrangements for the necessary work to be performed. Report accepted and actions endorsed.

Request for improvements to the road west of the NW 32-52-2--5 was received from Mr. John Simko of Carvel. Written report of inspection made by a Commitee of the Council on September 23rd was read to the Council with the recommendation that this road be gravelled. Report and recommendation accepted.

Request for an access road to the SE 32-50-4-5 was received from Mr. Eldon Greanya of R.R.1 Duffield. Written report of inspection made by the Public Works Committee on September 23rd was read to the Council. The Committee found that Mr. Greanya farms the quarter to the north and has access to the SE 32-50-4-5 by way of the quarter to the north and therefore feels there is no justification in purchasing a roadway to this quarter section at this time. Report accepted.

Offer to purchase Lot 15, Block 4, Plan 1593H.W., Skyland Gardens for the sum of $400 cash was received from Mr. Hans Rathman of Edmonton. Offer accepted.

Request for cancellation of a portion of road diversion in the SW 14-53-5-5 was received by Mr. Robert McCulloch of Fallis. Written report of inspection made by Reeve Zander and Councillor Mann was read to the Council with the recommendation that this road diversion be leased to Mr. McCulloch but that it not be cancelled at this time. Report accepted.

It was agreed to advise the Minister that the Council favors negotiations as proposed for this purpose.

It was agreed that Reeve Zander and Councillors Miller and Bailey and the County Solicitor be delegated to attend this meeting.

Notice received that meetings will be held by the Committee

STAIN REMOVAL

Schooltime and stained clothing seem to go hand in hand.

Many stained and spotted articles are needlessly thrown away each year. Others are ruined by unsuccessful attempts to remove stains. It is possible to remove almost any stain at home by following a few simple rules.

One of the most important rules is to remove the stain promptly. Stains that become old usually require a remover so strong that it sometimes injures the cloth.

Another important rule is to select a remover that will not harm the cloth. If you can find out what caused the stain, this also will guide you in choosing the best remover suited for the job.

Know your material. What is the garment made of and is it washable?

Work carefully, patiently and quickly. Often the way in which cleaning is done is as important as the kind of cleaning materials used, in getting good final results.

Try simple methods first -- For a non-greasy stain, sponge with cold water. For a greasy stain, try carbon tetracholride.

Avoid hot water on an unknown stain. Hot water sets many stains.

Test for colour change on a sample of the cloth before using any stain remover.

Use removers sparingly. Many brief applications are better than one long one.

Use light, brushing motions, never rub a remover into the stain.

Neutralize acids with alkalies; alkalies with acids.

Rinse well, never let a chemical dry on the cloth.

Spread a liquid remover unevenly into the cloth around the stain.

Dry rapidly to help prevent rings.

An excellent publication entitled Spot and Stain Removal may be obtained through my office. Hang it in your laundry room along with the various agents used in stain removal. These are listed in detail in the pamphlet. By taking these few minutes out and being prepared you may save yourself many clothing dollars.

THANK YOU

I wish to take this opportunity to express my thanks to those who supported me at the poll. I will endeavor to serve education in this community to the best of my ability.

I would appreciate hearing from anyone with problems or comments on the educational system as it effects Drayton Valley.

Lindale 4-H Swine Club trophy winners are shown following the banquet in the Lindale School Saturday evening. From left to right are Shann Bowen, Senior Club Champion; Lynn Martin, winner of the Spring Tour Trophy; and Elaine Thyr, Junior Club Champion.

Trophies Presented At Lindale 4-H Banquet

Lindale 4-H Swine Club held its annual Achievement Day Saturday and wound-up the event with a banquet and trophy presentation in the Lindale School during the evening.

Miss Heather Robb was M.C. for the evening and introduced the guest speaker Mr. Lyle McNichol, Associate Supervisor of Provincial 4-H. Mr. McNichol spoke about the many problems the younger generation faces in the world community. Polution and the conservation of renewable resources are major problems facing the world, he said, and are problems that will in large part have to be answered by young people who will be the leaders of tomorrow.

Mr. McNichol congratulated the club, its leaders Mr. and Mrs. Tom Martin and Mr. and Mrs. A. Robb, on the activities of the club. He noted that the five junior and six senior animals he had judged during the afternoon were all of excellent quality and well presented by members.

He was assited during the day by Mr. Doug Bienert, Regional 4-H Representative who was unable to attend the evening activities.

Following a delicious turkey and ham dinner, catered by the Warburg Legion Ladies Auxiliary, trophies and ribbons were presented by the club leaders. Complete results will be presented in a later issue of this newspaper.

Mr. McNichol showed films and a sock hop closed the days activities.

D. V. Highlights

BY MRS. EDITH DEBY

A most hearty welcome back to Mr. and Mrs. Fred Pearson who have been in Lac La Biche and Peace River since they left here five years ago. The Pearsons have bought a house, and will, we hope, stay put.

Mr. Victor Ball has been in an Edmonton hospital for the past two weeks receiving treatment for complications following pneumonia.

Mr. William Clarke (Billy to many of us) passed away last week at the age of eighty one. Mr. Clarke was a long time resident of Entwistle. For some time he had been a resident of the Stony Plain Senior Citizens Home. At one time Mr. Clarke hauled mail for all the post offices between here and the highway. He took his duties seriously and only a flood of some magnitude kept him away. Indeed Kipling's famous lines might well apply to Billy Clarke. He will be remembered by many of us with special gratitude for favours both big and small. Our sympathy is with his sons and grandchildren at this time.

The arrival of two new Alberta citizens is of special interest. These newcomers are sons born to Mr. and Mrs. Terry Clelland and Mr. and Mrs. Keith Fuhr respectively.

Mr. and Mrs. Leslie Tucker took a three day trip to the Okanagan. Among the folks visited were Mr. Eric Edholm and Mrs. Edith Dunington.

An accidental fire in Mrs. John MacKenzie Sr.'s porch brought painful injuries to her and her son John. While fighting the blaze John sustained second degree burns to his hands and arms. Mrs. MacKenzie will be incapacitated for some time with a pulled Achilles tendon.

THANK YOU

I would like to take this opportunity to thank the following people who helped me in my bid for a seat on the Town Council in last week's election: the business women who nominated me, the ladies of the Womens' Institute for their telephoning, and all the Electors who voted for me. Though our try was unsuccessful, your support was greatly appreciated.

Should you happen to have a copy to sell please contact me at 542-3451. It is not essential that the binding be in good repair but the pages should be in good condition.

The following titles are offered for your consideration: "Monsoon Murder" by Brian Cooper promises to be a spine chiller. The plot is laid in India and involves a beautiful Eurasian girl.

"Pirate Rock" by the well known Canadian author, David Walker, is likely to appeal to young adults. This author is called a master of suspense and humour. The book is fast paced and involves international intrigue.

William Johanneson, says "Angels in the Snow" by Derek Lambert is a very readable novel giving some insight into what can happen behind the iron curtain.

"Kuznetsk Land" by Alexander Voloshin is a translation from the Russian but has escaped the stiffness one finds in many such. Voloshin has travelled widely in his own country and has used the knowledge gained to write entertainingly.

This is a ten week course of two hours per week for a total of 20 hours. The limit of any class is eight persons. Presently two classes are under way with six persons in each class.

It would be very satisfactory if one class were run in Drayton Valley, however, to date the problem has been to locate a suitable facility for this activity.

For further information regarding the leathercraft courses contact Mrs. Phyllis Dow at 542-3815 or Mrs. Hope Vander Ploeg at 542-3293.

Bride-elect Honored

On Saturday, October 11th, a group of about 55 relations and friends gathered in the Magnolia Hall to shower the honouree, Miss Maxine June, with gifts and many good wishes. Artificial flowers in prismatic, harmonious colors accented the decorations of streamers of dainty pink and white. A charming "Surrey with the Fringe on Top" decorated in shades of pink, white, blue and gold was constructed to hold gifts.

Entertainment consisted of a card game and a very amusing pantomine portraying the bride and groom one year hence. The performers were Della Storms, as Maxine, the bride-to-be and Betty Strangway as Glynne, the groom-to-be. Together with the tune of "Tippy Toeing" they presented an entertaining sketch of married life .

Gaye Satermo and Kathy Charlet assisted Maxine in opening and recording her many gifts. One very novel present was a necklance of cookie cutters and other kitchen utensils given to the bride-to-be by Della Storms which Maxine wore throughout the afternoon. After the gifts were opened and passed around for everyone to admire, Maxine made a very gracious thank you speech, expressing her appreciation of the gifts.

Centering the head table was a bride's cake made by Mary Reich and decorated in pink and white by Della Storms. Ornamenting the top of the cake were dainty white roses and a tiny pink china girl appropriately holding a parasol. Those at the bride's table were Maxine June, the bride-to-be; Marie June, the bride's mother; Alma Roth, the groom's mother; Mrs. S. Roth, the groom's grandmother; Mrs. R. Strangway, the bride's aunt; Gaye Satermo and Kathy Charlet.

After a "Chequebook of Happiness" had been circulated for everyone to sign and write best wishes in for Maxine and Glynne a tasty lunch was enjoyed by all present.

SUB-MITS

FROM THE ELEMENTARY SCHOOL

This week let's introduce a member of the grade one staff. Mrs. McDonald is a "Duffield home-grown variety". She is married and her husband is on staff at the Separate School. This brings to mind a story that was prevalent several years ago. It seems that she used to call up the Separate School and ask to speak to "St. Anthony". Mrs. McDonald has her B. Ed. and now is in her fifth year of teaching. She enjoys skiing and sewing and walking her rabbit. And to keep her mind active she is taking oil painting and piano lessons this year.

Now I would like to bring up another topic -- that of school yards and playground equipment. During the depression little money was available for these purposes, yet most schools managed a swing or a see-saw. During the war, efforts and materials were channelled to that purpose. Now, 25 years later, our school yard still has nothing, not even a sand box. And we have over 600 children here. Over the past several years, this staff has requested that something be done and our pleas have apparently fallen on deaf ears. I feel that you, as the parents should be made aware of the problem.

Definition of the week:
Teacher: Now children, who knows what "pasteurization means?
Pupil: Mrs. Sware, I think it means milk that comes from a cow in a pasture.

Sincerely,
Olga Brown.

Volleyball in Full Swing at High School

Following a slow start in last Wednesday's intersquad games, the Warriors showed some of the precision ball handling they are capable of displaying when they outclassed the teaching staff Friday at noon before a healthy crowd of spectating students.

On Wednesday, both the boys' and girls' games ended in ties because of the limited time factor.

Friday's match was a best of three affair. The boys may have had a temporary mental block which gave the staff an opportunity to win the final contest. So Some say the refereeing by Mr. Katyal and the umpiring by Max-i-Mun was less than unbiased. At any rate the spirit of the contest left players and spectators smiling.

This Wednesday, October 22nd both girls' and boys' teams will travel to Stony Plain for exhibition competition against Stony Plain and Seba Beach.

The players wish to thank those students who have participated as spectators to this point.

The Warrior's team consists of Doug Ibbotson, Larry Mattoon, Terry Jevne, Pat Coppens, Pat Fink, Joe Palmer, David Dusterhoft, Doug Steeves, Larry Wall, Earl Nixon, Ken Dusterhoft, Ron Cameron, Tom McGee and Jack Palmer.

On the Warriorettes team is, Terry Cable, Linda Frank, Pat Hoge, Donna Hook, Betty Hodgson, Elaine Hicks, Judy Gaubault, Janet Metelski, Penny Lapointe, Janine LaBranch, Cindy Vowk, Cathy Yurchak, Connie Hagen and Colleen Holmen

ST. ANTHONY'S NOTES

By Susan Pezzot

St. Anthony's School was the scene of a Crazy Hat Day, October 17th. The Junior High students and their teachers had to wear a crazy hat invented by themselves. There was a 25¢ fine for all students and a 50¢ fine for all teachers who did not wear a hat. Fine money went towards the Mississippi Fund, a fund to help the people involved in the Mississippi flood disaster.

Hats were worn all day with the judging from 3:00 to 3:15 p.m. Mr. McDonald, Mr. Duteau, Sister Brule and Mr. Pinkoski were the judges.

Chosen as the winners were: Michael Kane from grade seven; Real Gascon, grade eight; and Susan Pezzot, grade nine. Each winner received a 45 r.p.m. record. The day's proceedings were enjoyed by all.
